WHAT IS THE LEGACY FUND?

Established in 2011, the Greater Toronto Hockey League's Legacy Fund is a fundraising branch of the organization that strives to help families in need and to assist organizations in funding hockey program with a focus on child and community development. The GTHL Legacy Fund's ultimate goal is to break down barriers surrounding entry to the game and to support development within the sport.

While the Legacy Fund is a league priority all-year round, the annual Legacy Classic Golf Tournament is where the spotlight is truly pointed on this cause and its goals.

Grant partnerships, such as the matching program in place between KidSport and the GTHL, are made possible thanks to the Legacy Fund. As is the Legacy Fund Community Grant, which offers member clubs and affiliates an opportunity to apply for funding to financially support the great work they are doing to promote the sport within communities.

As the GTHL continues its commitment to culture, diversity, equity, and inclusion, a stronger focus has also been implemented to align the Legacy Fund with DEI-related principals — with all effort pointed to the ultimate mandate of increasing access to sport.

The GTHL is proud to be a leader across the hockey landscape, dedicated to set the standard and raising the bar when it comes to safe and accessible sport for all.
